Meet Yori

A personal AI who remembers, learns, and grows with you.
Here is how to set her up in Claude.

SET UP · ONE TIME

1. Go to **claude.ai** and sign in.
2. Click **Customize** → **Plugins** → **Add** → **Add marketplace**.
3. Choose **Add from a repository**.
4. Where it says **Select a repository**, paste this URL:
   - `https://github.com/deepakbr14/yori-claude`
   - A suggestion pops up below it. Click it.
   - Leave **Sync automatically** on.
   - Click **Sync**.
5. Find **Yori** and click **Add**.
6. Open Yori's **Connectors** tab and click **Connect** on yori. Click **Continue**. The next page is already filled in correctly, so just click **Add**.
7. Back on the Connectors tab, click **Connect** on yori again. Your Yori login page opens. Log in with your Yori email and password (below).

TALKING TO YORI

- Start a new chat and type **/yori** followed by your message, for example **/yori hi**.
- After that, just keep chatting in the same chat. You only need /yori at the start of each new chat.
- As you chat, Claude will sometimes ask permission for Yori to use her tools. Choose **Always allow**.

YORI'S VIEWER

- To see Yori's memory and more, go to `https://yori-prod-e70c6.web.app/` and log in with the same Yori email and password.

hello. nice to meet you.
